

F.lli Giacomello

**REACH**

Registration, Evaluation,  
Authorisation of Chemicals

Dear Customer,

the EC Regulation No. 1907/2006 concerning the registration, the valuation, the authorization and the restriction of chemical substances (REACH), which came into force on the national territory on 1 st June 2007, concerns the management of substances and chemical products, investing the entire industrial production chain, in particular the chemical chain and the sectors downstream of it.

As a result, not only producers / manufacturers or importers of chemical substances, but also many other companies using substances or preparations within their production cycles (downstream users) are involved.

We are not producing, and even importers of substances, compounds or other objects containing substances destined to be released, the Company F.lli Giacomello srl does not appear subject to the registration requirement, but in any case it correctly applies the measures for the management of the risks associated with the dangerous substances indicated also in the safety data sheets transmitted by its suppliers.

F.lli Giacomello srl, as a “producer of articles”, i.e. end user who incorporates substances or preparations into articles, in such a way that substances or preparations become integral parts of such articles, actively participates in the intense and detailed exchange of information along the production chain and therefore, for substances subject to the REACH regulation, it communicates to its customers the following:

- None of the chemical substances taken into consideration by Regulation EC 1907/2006 and listed in the “CANDIDATE LIST” of SVHC substances (Substances of Very High Concern) according to the latest update available (July 10, 2019) is present in the articles supplied, beyond the limits regulations;
- The products supplied by F.lli Giacomello srl. comply with the requirements of the Directive 2005/69 / EC on the content of polycyclic aromatic hydrocarbons (PAH), repealed and replaced by Annex XVII of the Reach Regulation, by Regulation 2015/326 / EU and by Regulation 1272/2013 / EU;
- Regarding our supply chain, we have verified and received documented assurances regarding the pre-registration and registration obligations of the chemical elements or substances involved in the various production processes.

Grateful of the attention you have reserved for this communication, we remain available for any further clarification.

F.lli Giacomello srl
